Figure 4: Instrument Store Catalog

This page serves as the main product gallery, featuring a categorized navigation menu and a grid display of musical instruments and accessories. Each product card provides an image, description, price, current stock status, and an "Add to Cart" button for purchasing.

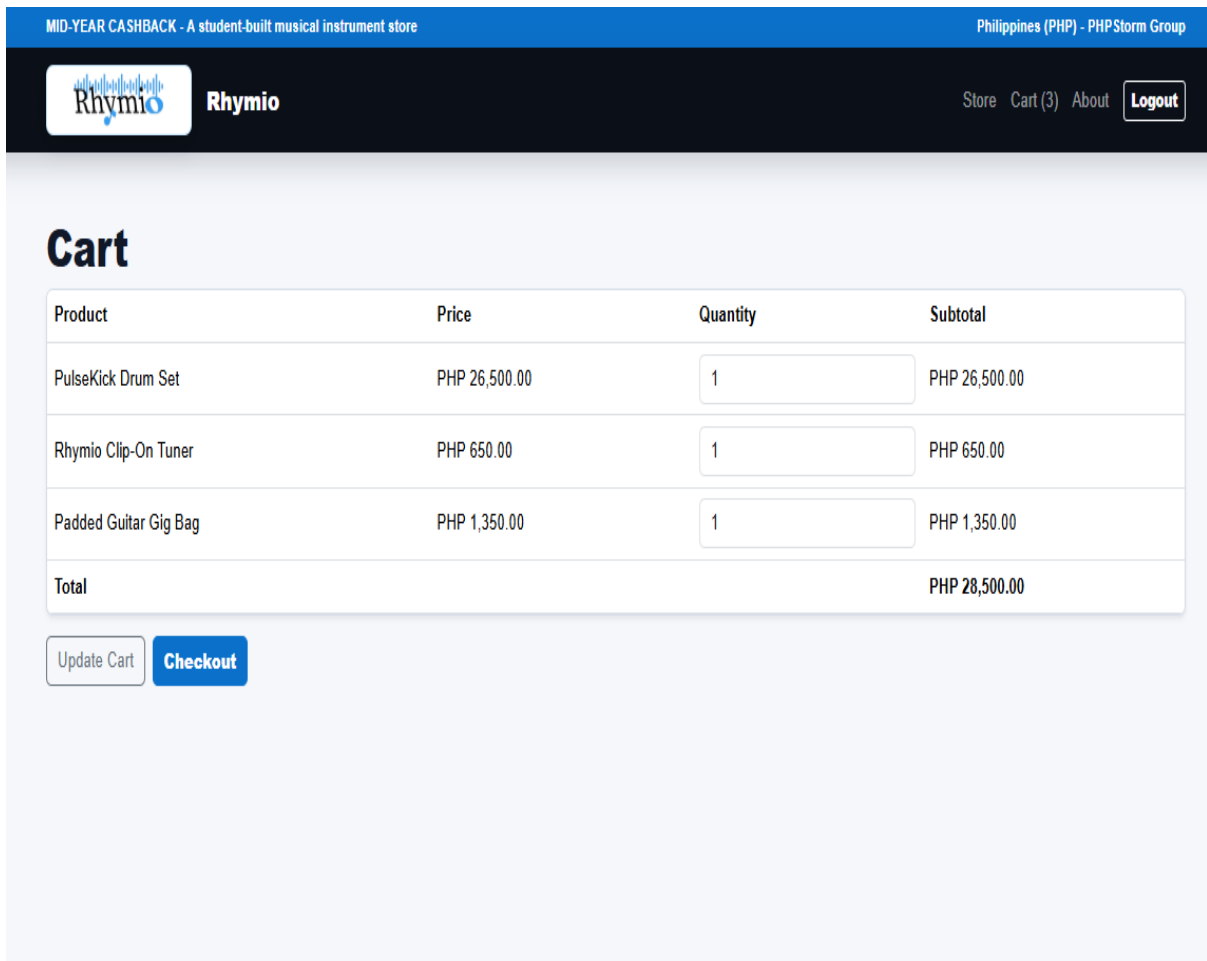

Figure 5: Shopping Cart Page

This page summarizes the items a user has selected for purchase, displaying the product name, unit price, quantity, and item subtotal. It provides a running total cost and includes "Update Cart" and "Checkout" buttons to manage the order process.

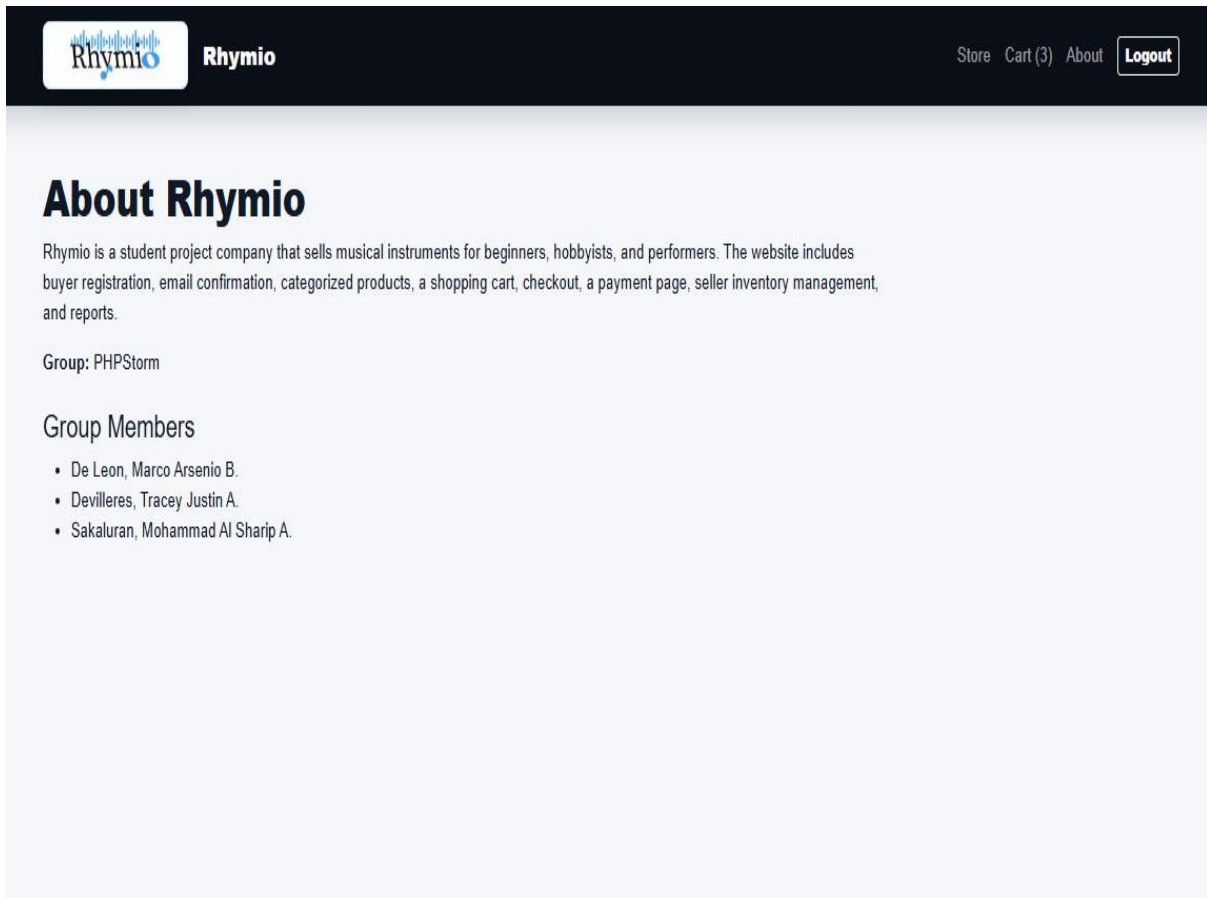

Figure 6: About Page

This page provides an overview of Rhymio, detailing its function as a student-developed e-commerce platform for musical instruments. It lists the core features of the system, identifies the project group (PHPStorm), and lists the participating group members.

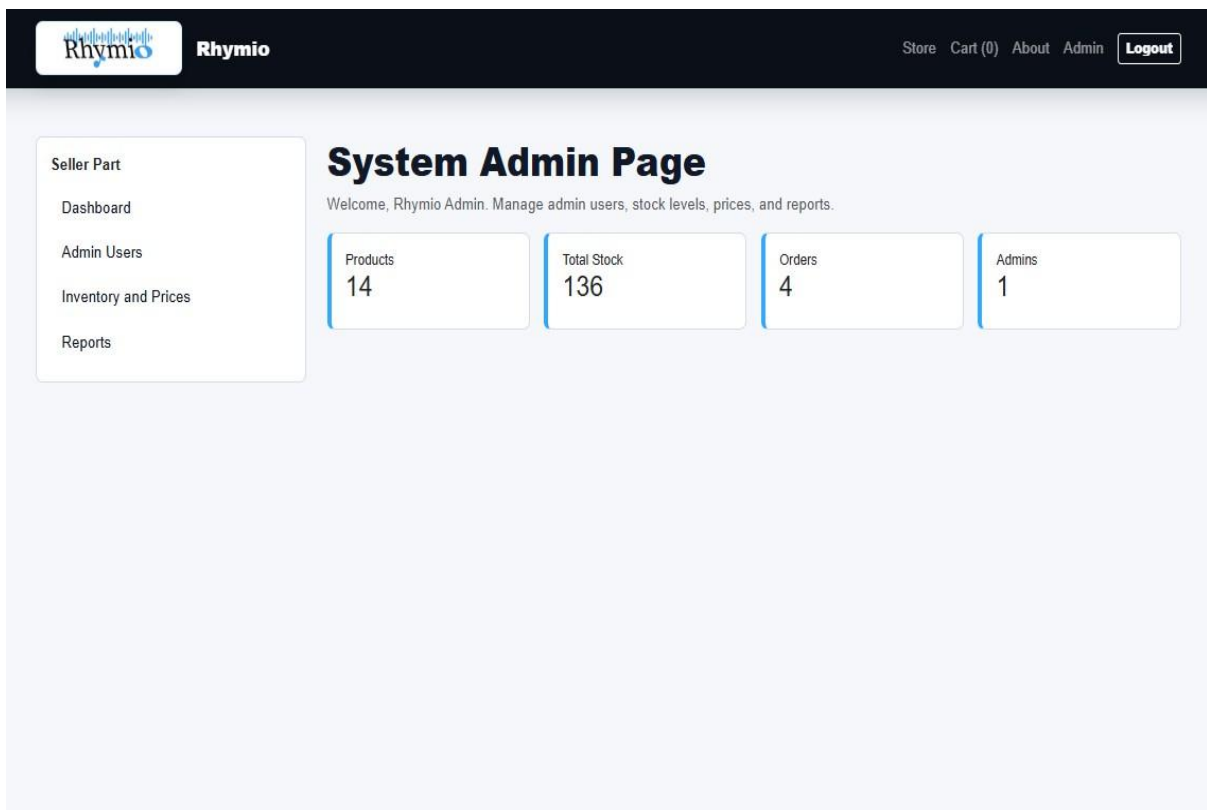

Figure 7: System Admin Dashboard

This is the central hub for store administrators. It provides an overview of key metrics—including total products, stock levels, orders, and active admins—and features a sidebar navigation menu to manage users, inventory, pricing, and system reports.
